◆ Professional Summary

A results-driven Backend Developer with over 3 years of experience in the fintech industry, specializing in secure and scalable payment system integrations. Skilled in Node.js, Express.js, MongoDB, and Docker. Proven success in developing APIs for virtual account systems and QRIS with major banks (BCA, Mandiri, Nobu) and third-party providers like Xendit, Faspay, and Midtrans. Passionate about building high-performance backend systems with a strong emphasis on security (SNAP, Encryption, Signature) and reliability.

Technical Skills

- **Languages & Frameworks:** JavaScript, Node.js, Express.js, React.js, PHP, ASP.NET
- **Databases:** MongoDB, MySQL, Microsoft SQL Server, Oracle
- **Tools & Platforms:** Docker, Git, Postman
- **Key Technologies:** Pug.js, REST API, JWT, QRIS, Virtual Account, Signature & Encryption
